PROFESSIONAL SUMMARY

Product leader. Voice AI practitioner. UX obsessive. Contact centers are being fundamentally disrupted by AI — and I'm building the products at the center of that shift. As Director of Product at 3CLogic, I'm architecting Voice AI Hub and driving the AI-first transformation of enterprise CCaaS, embedding autonomous Voice AI agents, Conversational AI, and agentic workflows into the contact center platforms that power ServiceNow, SAP, and Salesforce ecosystems globally. With 13+ years building enterprise CX platforms across 3CLogic, Freshworks, ServiceNow, and SAP — impacting millions of users across 100+ enterprise customers — I own product roadmap strategy end to end: from customer discovery and GTM alignment to shipping AI products where every interaction feels effortless. I use Agentic AI, Claude Code, and MCP internally because the fastest way to solve customer problems is to first solve your own.

EXPERIENCE

Director of Product Management

3CLogic | Noida / Remote | Oct 2024 – Present

- **Voice AI Hub:** Architected 3CLogic's flagship AI product — no-code platform for LLM-powered Voice AI and Conversational AI agents (OpenAI/GPT-4, Whisper, Deepgram, ElevenLabs) with multilingual TTS, RAG-based knowledge stores, ServiceNow-native automation (case creation, incident management, record ops), and AI Agent-to-Agent Delegation — enabling end-to-end self-service across ITSM, HR, and CSM without human intervention.
- **CCaaS Platform Launch:** Product-led go-live of 3CLogic's revamped CCaaS platform for 100+ enterprise customers — redesigned CTI on SIP/WebRTC, serverless/microservices architecture, unified agent workspace across ServiceNow SOW, CSM/FSM, and HR workspaces; contributed to \$10M–\$50M ARR.
- **Real-Time Intelligence & Coaching:** Shipped near-real-time transcription (40+ languages), live sentiment scoring (10-second refresh), topic detection, and post-call AI summaries to ServiceNow; conceived Whisper Mode — silent supervisor coaching triggered from the sentiment dashboard.
- **Feature Portfolio & Roadmap:** Directed 8+ flagship CCaaS features in 18 months — Flow Designer (drag-and-drop IVR builder, 20+ nodes), DoT Compliance (India), Screen Recording, WCAG Accessibility, Design System, KEDB — enabling no-code automation of VIP routing, incident self-service, and case escalation.
- **Admin & Platform:** Owned Admin Portal — user lifecycle, queue management, RBAC, presence sync, multi-instance ServiceNow adapter, authentication profiles, and webhooks — governing enterprise CCaaS deployments end to end.
- **Leads cross-functional team** of PMs, designers, and analysts; drives GTM alignment and product-first culture leveraging Claude Code and MCP-powered tooling.

Senior Product Manager — CX & CCaaS

Freshworks | Bengaluru | Sep 2022 – Sep 2024

- **Conversational AI Roadmap:** Incubated and shipped Freddy Co-Pilot AI — Multi-Language Automation, Routing Automation (multi-hierarchy skills), and Intelligent Assignment for tickets, chats, and calls across the CX platform; owned the Conversational AI roadmap from discovery through GTM launch.
- **Widget Re-engineering:** Led complete redesign of Freshdesk Contact Center caller widget for thousands of businesses across Europe & Americas — WCAG 2.0 compliant, cross-product compatible — driving 20%+ improvement in CSAT scores and measurable churn reduction post-launch.
- **Integrated widget strategy** into CRM Inbox View enabling seamless product bundling; owned PMM content strategy for all products under purview.

Senior Product Manager — UI Builder & Next Experience Platform

ServiceNow | Bengaluru | Aug 2021 – Jul 2022

- UI Builder: Inbound PM for ServiceNow UI Builder — Next Experience low-code platform used by millions of enterprise users to build agent workspaces, portals, and CX experiences across ITSM, CSM, and HR Service Delivery.
- Component Platform Roadmap: Owned strategy and roadmap for 150+ reusable Next Experience web components — page layouts, data visualisation, navigation, messaging, Email Client — used across all ServiceNow workspaces and ISV partners globally.
- Platform Releases: Led two end-to-end releases (San Diego & Tokyo) — WCAG compliance, audience-based page variants, controller architecture, developer productivity — serving millions of agents, admins, and developers worldwide.
- Built Web Platform PM Onboarding Program; successfully onboarded 5+ PMs and reduced time-to-productivity across the group.

Senior Product Manager — CX, UX & Security Patches

SAP HANA Enterprise Cloud | Bengaluru | Dec 2019 – Jul 2021

- Pioneered ECS Pilot XM — MDM analytics solution enabling data-driven product strategy across 100–500 enterprise accounts on HANA Private Cloud.
- Led Security Release & Patch Management across AWS, Azure, and GCP; designed ACL & Control framework for the Security Patching widget across all customer systems.

Product Manager — HCM, ITSM & ITBM

SAP SuccessFactors | Bengaluru | May 2017 – Nov 2019

- Delivered global ITSM ServiceNow Transformation for a \$1B+ cloud company across 7 time zones and 5+ countries in <100 days; led a 20-person Customer Experience Centre team.

ITSM Product Owner | Solution Engineer | Service Coordinator

SAP SuccessFactors | Bengaluru | Aug 2012 – Apr 2017

- Progressed from Service Coordinator to Product Owner over 5 years; designed 5-Why RCA methodology, Quality Control Structure, and established the global Quality Review Board for SuccessFactors.
